

Cameroon Industrial Switch Price Trends

Overview

Production prices recorded a significant 5. This reversal sharply contrasts with the trend observed since 2020," reveals the INS report. According to World Bank statistics, Cameroon's real gross domestic product (GDP) grew by 3.7 percent in 2024 and is projected to reach 4.6 Million by 2035 at a strong. In 2023, Cameroon saw significant imports of electrical switches from top exporters including China, Germany, Poland, France, and Ukraine. The high Herfindahl-Hirschman Index (HHI) indicates a concentrated market. 23%, coupled with a growth. The Industrial Producer Price Index (IPPI) released by the National Institute of Statistics (INS) on May 7, 2024, indicates a decline in production costs within Cameroonian industries in 2023, contributing to a 5. It is based on the information available at the time it was completed on December 7, 2023.
