

Nigerian Fiber Optic Cable Fabrication

Overview

Nigeria's digital infrastructure took a significant step forward with the commissioning of Africa's largest fibre optic cable factory and the continent's first fibre-reinforced plastic (FRP) manufacturing facility. Broadbased Communications Limited (BBC) specializes in Next Generation Fiber Optic Network solutions in Nigeria, being the first to implement a NO-DIG installation method using Horizontal Directional Drilling Equipment. Industry experts say the plant, built by Coleman Technical Industries Limited (CTIL). Tinubu congratulates Coleman on 50th anniversary, urges group to scale made in Nigeria Coleman Technical Industries Limited, Nigerian wires and cables manufacturer, has launched a 9 million kilometers Fibre Optic cable factory in Sagamu, Ogun state. With a dielectric, weather-resistant sheath, it withstands environmental factors, providing secure, high-capacity data transmission without extra support wires. A duct fiber cable is a rugged fiber. Our technological heritage includes the first to market offerings for many of the fiber optic products that meet today's industry standards. Details of the launch were reported last October by Nigerian telecommunications.
