

## No internet connection via fiber optic cable

### Overview

If your fiber internet shows no WAN connection, first verify the fiber optic cable is securely connected to the ONT (Optical Network Terminal). Check the ONT's status lights for signal and power indicators. Fiber optic networks are celebrated for their speed and reliability, but even the best systems can encounter problems. These high-speed, high-capacity communication networks are increasingly replacing copper cables, offering superior performance and. When your fiber optic network stops working, begin with a structured approach. Your fiber optical network terminal (ONT), modem, or gateway provides LEDs letting you know the status of your internet (wide area network, or WAN) and home network (local area. Have you noticed if any cables or connectors are loose or not fully plugged in on your modem or router?

Customer: no wan connection yes did Technician's Assistant: Thanks for confirming that you've checked the cables and saw a "no WAN connection" message.
