

Oman AI Server Manufacturing Plant

Overview

Oman is set to begin an advanced artificial intelligence (AI) semiconductor chip manufacturing project in Salalah Free Zone, Dhofar, following the signing of a memorandum of understanding (MoU) between the Ministry of Transport, Communications, and Information Technology (MTCIT). Oman is set to begin an advanced artificial intelligence (AI) semiconductor chip manufacturing project in Salalah Free Zone, Dhofar, following the signing of a memorandum of understanding (MoU) between the Ministry of Transport, Communications, and Information Technology (MTCIT). The Ministry of Transport, Communications, and Information Technology signed today a Memorandum of Understanding (MoU) with AONH Private Holdings to formalize mutual cooperation to develop advanced Artificial Intelligence Semiconductor Chips. This partnership is aimed at fostering innovation, transferring technical knowledge, and building Oman's capabilities in AI and semiconductor technologies. A. Oman's digital infrastructure landscape is evolving rapidly as the country accelerates its ambitions to become a regional technology and data hub. With the increasing adoption of artificial intelligence (AI), cloud computing, and high-performance computing (HPC), demand for AI servers and GPU. Muscat - The sultanate is set to start an advanced artificial intelligence (AI) semiconductor chip manufacturing project in Salalah Free Zone, Dhofar following a memorandum of understanding (MoU) signed on Monday. These Terms and Conditions ('the Terms') govern your use of the.

Article Content

Oman AI Servers and GPU Hardware Industry Size, Share, Demand, ...

By 2035, Oman is expected to emerge as a regional node for AI-driven data processing and cloud services, supported by improved connectivity through international submarine cable networks and ...

Oman to Establish AI Chip Manufacturing Unit in Salalah

The signing of the MoU to establish an AI chip manufacturing unit in Salalah marks a significant milestone in Oman's journey toward technological and economic progress.

ENGINE AI - Oman's AI Hub

Oman's applied AI startup — deploying real solutions and partnering with global AI companies entering the Oman market. An interactive AI-powered surface that responds to user motion — reflecting how ...

Oman to Develop Advanced AI Semiconductor Chips for Next-gen ...

These chips are set to play a crucial role in next-generation AI applications, including self-driving vehicles and AI training systems. The initiative will take place in the Salalah Free Zone ...

Oman Signs MOU to Develop Advanced Artificial Intelligence ...

The chips will be used in next generation Ai applications such as self-driving vehicles, AI training and others. The project, will be based in the Salalah Free Zone in Dhofar Governorate.

Oman to develop advanced AI semiconductor chips for ...

These chips are set to play a crucial role in next-generation AI ...

Oman Launches AI Semiconductor Chip Manufacturing Project in ...

The initiative aims to establish Oman as a key player in the global semiconductor industry, responding to the growing demand for AI technologies. It will also contribute to the ...

Ministry of Transport, Communications and Information Technology

By facilitating the establishment and operation of this plant in Oman, the Sultanate gains an entry point into the semiconductor industry, creating new job opportunities, linking academic and ...

MoU signed to set up AI chip unit in Salalah

The project aims to consolidate Oman's position in the global semiconductor industry, addressing the rising demand for AI technologies. It will also help develop local expertise in chip ...

Oman announces AI chip manufacturing project

Oman has announced plans to start an advanced artificial intelligence (AI) semiconductor chip manufacturing project in Salalah Free Zone, Dhofar, in the south of the country, following a ...

Oman inks agreement to develop advanced AI semiconductor chips

This agreement marks a critical milestone in Oman's push to develop cutting-edge technologies in the semiconductor field. The project, which will be based in the Salalah Free Zone in ...
