

Spacing of Large Span Cable Tray Supports

Overview

Cable Management Tray Size: Choose a tray size that will hold the desired amount and length of cable. **Support Spacing:** Remember the NEC requires no more than 4 feet of support spacing. Ladder cable trays are a popular alternative to electrical conduit systems, as they have an outstanding record for dependable service, design flexibility and cost savings in commercial and industrial applications. The Cable Tray ng standards, performance standards, test standards and application in this document have been tested extensively by competent professional engineers completely installed, without damage either to conductors or.

Horizontal Runs: Cables should be secured at their start, end, and turns, and every 3 to 5 meters along straight horizontal sections. **Vertical Runs:** For vertical cable runs within trays, cables should be secured at the top and every 1 meter. Hubbell's strength is demonstrated by a long-standing reputation for supplying reliable products and solutions for electrical installation for over 100 years. With our many years of experience, we are one of the leading manufacturers in this field. Establishing partnerships.
